LE BORDEAUX
ROUGE

2013

Blend: Merlot and Cabernet Sauvignon

Winemaking : Traditional in stainless steel vats with long and continuous monitoring of temperatures.

This allows a better control of all stages of wine fermentation to produce a colored and fruity wine, without over extraction.

A subtle and unctuous blend with well melted intense and generous tanins. The blend is a Bordeaux classic, with 55% of Merlot and 45% of Cabernet Sauvignon.

Winemaking is in temperature controlled stainless steel tanks to capture and preserve the fruit.
